PTA-1487

The deposits were accompanied by:        a scientific description, a proposed taxonomic description indicated above. The deposits were received March 15, 2000 by this International Depository Authority and have been accepted

AT YOUR REQUEST: X We will inform you of requests for the strains for 30 years

The strains will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strains, and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said strains

If the cultures should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with living cultures of the same.

The strains will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the cultures cited above was tested March 29, 2000. On that date, the cultures were viable
